MICHAEL G. MAYNES JR

Titusville, FL | MichaelGMaynesjr@gmail.com | linkedin.com/in/michael-maynes-419a9b22a | michaelmaynes.github.io

PROFESSIONAL SUMMARY

IT Technician and Cybersecurity and Network Systems student with hands-on experience setting up, testing, and troubleshooting network-connected devices, printers, and specialized election technology. Skilled in Ethernet connectivity, operational readiness checks, documented procedures, and technical reporting. Seeking IT support, desktop/network support, or entry-level cybersecurity opportunities.

TECHNICAL SKILLS

IT Support: Hardware troubleshooting, technical support, equipment setup, spreadsheet reporting, data verification
Networking: TCP/IP, IP addressing, Ethernet cabling, network switches, network hardware, device connectivity
Windows & Hardware: Windows configuration, PC diagnostics, peripheral support, printer maintenance, software installation
Systems & Security: Linux fundamentals, Microsoft Server, access control, security monitoring, equipment integrity checks
Platforms & Tools: DS300, ExpressVote, EViD, SQL, virtualization, Microsoft Office, spreadsheets

PROFESSIONAL EXPERIENCE

IT Technician | Brevard County Supervisor of Elections | Melbourne, FL — Sep 2026 - Present

- Set up, tested, and supported DS300 ballot scanners, ExpressVote devices, EViD voter check-in stations, printers, and related computer equipment for early voting.
- Connected and troubleshot network-enabled equipment, Ethernet cabling, switches, phones, and peripherals to verify reliable site connectivity.
- Performed documented startup and shutdown checks, confirming scanner status, configuration and zero reports, and test-print functionality.
- Supported troubleshooting of equipment alerts, power and battery conditions, and scanner printer-paper issues; escalated system errors using established procedures.
- Verified tamper-evident seals, secure equipment compartments, and device readiness against site opening and closing checklists.
- Entered and verified daily election data in reconciliation spreadsheets, cross-checking EViD check-in reports against DS300 scanner totals and submitting reports to the election office.

Security Screener | Allied Universal | Cape Canaveral, FL — Feb 2024 - Oct 2026

- Monitored passenger and staff activity in secured environments to identify suspicious behavior and potential security risks.
- Performed X-ray and detection screening and access control while following security protocols and procedures.
- Documented incidents and security logs; coordinated with supervisors, law enforcement, and emergency responders as needed.

Cable Assembler | Aero Electronics Systems, Inc. | Titusville, FL — Jun 2022 - Jan 2023

- Assembled aerospace wiring systems according to technical specifications, quality requirements, and safety procedures.
- Conducted circuit testing, soldering, and quality assurance to verify functionality, accuracy, and compliance with standards.

EDUCATION

Eastern Florida State College | A.S. Cybersecurity and Network Systems — Expected 2027

54 of 60 credits completed; general education requirements complete.

Completed coursework: Network+, Computer Maintenance & Repair, Microsoft Client O/S, IT Project Management.

In progress/planned: Network Security Fundamentals, Linux Networking/System Administration, MS Server O/S Install & Config, Database Techniques, Foundations of Digital Forensics, Virtual Infrastructure Planning/Design.

Econ River High School | High School Diploma — Aug 2017 - May 2021
