Titusville, FL | MichaelGMaynesjr@gmail.com | linkedin.com/in/michael-maynes-419a9b22a | michaelmaynes.github.io

PROFESSIONAL SUMMARY

Cybersecurity and Network Systems student with professional IT experience supporting specialized hardware, network-connected devices, printers, and site connectivity. Hands-on experience with hardware troubleshooting, Ethernet cabling, network switches, Windows systems, and PC diagnostics.

TECHNICAL SKILLS

IT Support: Troubleshooting, technical support, customer service, documentation

Networking: TCP/IP, IP addressing, Ethernet cabling, network switches, network hardware, device connectivity

Windows & Hardware: Windows configuration, PC diagnostics, maintenance, software installation

Systems & Security: Linux fundamentals, Windows Server fundamentals, virtualization, cybersecurity fundamentals

Tools & Technologies: DS300, ExpressVote, EVID, SQL, Microsoft Office

PROFESSIONAL EXPERIENCE

IT Technician | Brevard County Supervisor of Elections | Melbourne, FL

Sep 2026 - Present

- Set up, support, test, and troubleshoot DS300 ballot scanners, ExpressVote systems, EVID voter check-in equipment, printers, and related election hardware.
- Connect and troubleshoot EVID stations, printers, phones, and ExpressVote devices using Ethernet cabling and network switches to establish and maintain site connectivity.
- Verify equipment readiness by checking device connectivity, network connections, peripherals, and system functionality in a time-sensitive operational environment.

Security Screener | Allied Universal | Cape Canaveral, FL

Feb 2024 - Oct 2026

- Monitor passenger and staff activity in secured environments to identify suspicious behavior and potential security risks.
- Perform X-ray and detection screening and access control while following security protocols and procedures.
- Document incidents and security logs; coordinate with supervisors, law enforcement, and emergency responders as needed.

Cable Assembler | Aero Electronics Systems, Inc. | Titusville, FL

Jun 2022 - Jan 2023

- Assembled aerospace wiring systems according to technical specifications, quality requirements, and safety procedures.
- Conducted circuit testing, soldering, and quality assurance to verify functionality, accuracy, and compliance with standards.

EDUCATION

Eastern Florida State College | A.S. Cybersecurity and Network Systems

Expected 2027

54 of 60 credits completed; general education requirements complete.

Completed coursework: Network+ coursework, Computer Maintenance & Repair, Microsoft Client O/S, IT Project Management.

In progress/planned: Network Security Fundamentals, Linux Networking/System Administration, MS Server O/S Install & Config, Database Techniques, Foundations of Digital Forensics, Virtual Infrastructure Planning/Design.
